

The National Center for Fatality Review & Prevention: Supporting Fatality Review Teams

The National Center for Fatality Review and Prevention is the resource and data center that supports Child Death Review (CDR) and Fetal and Infant Mortality Review (FIMR) programs across the country.

NATIONAL CENTER RESOURCES

Digital Resources

- CDR & FIMR program overview and manuals
- Webinar series and archived webinar library
- Quarterly newsletters
- Listservs for CDR and FIMR

To join a listserv or to receive the newsletter, send your request to info@ncfrp.org.

Training Modules

This free video module series provides training for diverse aspects of fatality review. All under one hour in length, topics include:

- Best practices in CDR and FIMR
- Incorporating health equity in fatality review
- The National Fatality Review-Case Reporting System
- Conducting maternal interviews

Guidance Documents

The National Center publishes guidance documents to highlight best practices for fatality review professionals. Guidance topics include:

- Collaboration between CDR and FIMR programs
- Addressing vicarious trauma
- Effective review of natural infant deaths
- Reviewing child abuse and neglect fatalities

All resources are available at www.ncfrp.org.

The National Center is funded in part by Cooperative Agreement Numbers UG7MC28482 and UG7MC31831 from the US Department of Health and Human Services (HHS), Health Resources and Services Administration (HRSA), Maternal and Child Health Bureau (MCHB) as part of an award totaling \$1,099,997 annually with 0 percent financed with non-governmental sources. Its contents are solely the responsibility of the authors and should not be construed as the official position or policy of, nor should any endorsements be inferred by HRSA, HHS or the U.S. Government.

NATIONAL CENTER ACTIVITIES

Technical Assistance

Provides programmatic support to CDR and FIMR teams, as well as federally-funded Healthy Start programs, remotely and through in-person site visits.

Training

Provides training to fatality review teams to help improve implementation, processes, data collection, partnerships, and prevention recommendations.

Shared Learning & Networking

Provides ongoing workgroups focused on **HEALTH DISPARITIES** and **DATA QUALITY**, and periodic conference calls for fatality review coordinators.

Moving Data to Action

Develops strong partnerships to help translate CDR and FIMR findings into national program and policy recommendations to improve child health and safety.

Fatality Review Data Support

The National Center hosts and maintains the National Fatality Review-Case Reporting System (NFR-CRS), a free, web-based system for CDR and FIMR case review data collection and analysis used by 45 states. Staff are always available for data system support and technical assistance, or to support data quality improvement.
