GUEST SPEAKERS:

Diane Pilkey, RN, MPH  
Health Resources and Service Administration (HRSA)

Nicole Hughes,  
Founding Director, Levi’s Legacy

Todd Porter, MD, MSPH, FAAP  
Denver Health Medical Center

Morag McKay, PhD  
Director of Research  
Safe Kids Worldwide

WHY ATTEND
Join the National Center for Fatality Review and Prevention for a webinar focused on pediatric drowning fatalities. May is National Water Safety Awareness Month, an excellent time to consider how to address this leading cause of injury death in children. The speakers will provide an overview of drowning fatality data; gaps in knowledge to drive prevention and drowning instruction strategies; opportunities to improve research; advocacy opportunities; and prevention resources.

*A limit of 500 attendees are permitted. All webinars are archived and posted on our website: https://www.ncfrp.org/

Welcome and Opening Remarks:

Diane Pilkey, RN, MPH is a Senior Nurse Consultant at the Maternal and Child Health Bureau/Health Resources and Services Administration and the federal project officer for the National Center for Fatality Review and Prevention cooperative agreement. Diane has more than 20 years of experience in public health at the local, state, and federal level, including with the Washington State Department of Health, where she worked as an epidemiologist and the Child Death Review Assessment Coordinator. Diane is a registered nurse who has practiced in both clinical and public health settings in both urban and rural settings. Her work has focused on children and adolescents, injury and violence, infant mortality, and early childhood. Diane has a master’s in Public Health from the Maternal and Child Health program at the University of Washington Public Health School, a bachelor’s in nursing from the University of North Carolina and a bachelor’s in Cultural Anthropology from Duke University.

Guest Speakers:

Nicole Hughes is a teacher and mother of 4 children. In June 2018, her 3-year-old son, Levi, drowned when he slipped out of a room filled with people while on vacation. After losing their son to drowning, Nicole and her husband turned to advocacy. They have since partnered with the American Academy of Pediatrics, Olympic skier, Bode Miller, and numerous other organizations. They hope to help bring awareness to the statistics on how and when toddlers drown.

Todd Porter is a community pediatrician in Denver, Colorado. He completed his pediatric residency at Children’s Hospital Colorado in 2003 and went on to complete a Preventive Medicine Residency and MSPH at the University of Colorado Health Sciences Center. He has been practicing primary care pediatrics since 2008, most recently at Denver Health Medical Center. Dr. Porter has maintained a

He has been practicing primary care pediatrics since 2008, most recently at Denver Health Medical Center. Dr. Porter has maintained a
longstanding relationship with the local Safe Kids Coalition and is passionate about pediatric injury prevention with specific interest in child passenger safety and drowning prevention.

**Morag MacKay** is Director of Research at Safe Kids Worldwide (SKW), where she is responsible for ensuring all aspects of their work are informed by data and research evidence and for supporting evaluation efforts. Prior to joining SKW in early 2016 she was Programme Manager at the European Child Safety Alliance for 11 years, where she managed several large multi-country research and advocacy projects aimed at bridging the evidence to action gap and supporting adoption and implementation of evidence-based good practices for the prevention of injuries to children and youth in Europe. Morag is originally from Canada and has an undergraduate degree in nursing science and graduate degree in medical science with a specialization in epidemiology. Her professional activities have largely focused on the prevention and control of children's injuries and her contributions to the field over the last 25+ years have been in the areas of surveillance, education, research, program and policy planning and evaluation. She currently chairs the Water Safety USA supported Steering Committee tasked with overseeing the development of a U.S. National Water Safety Action Plan.

**Webinar Host Organization: The National Center for Fatality Review & Prevention**

The National Center for Fatality Review & Prevention (NCFRP), a program of the Michigan Public Health Institute (MPHI), is funded by the U.S. Health Resources & Services Administration Maternal and Child Health Bureau to provide training, technical assistance, and data services to CDR and FIMR programs around the country.
